

REPORT TO CHANCELLOR
1981-82 Disabled Students' Program
Chancellor's Advisory Board

The Advisory Board, which is advisory to the director of the Disabled Students' Program, monitors broad operations of the Program, reviews compliance with 504 legislation and makes recommendations to the Chancellor.

The Physically Disabled Students' Program dropped the word "Physically" from the name of the program. Students with non-orthopedic disabilities felt the name was not inclusive of all students served.

The six major topics which concerned the Board this year were: changes in 504 legislation, faculty attitudes toward disabled students, in-depth study of the Shop/Transportation unit, services to non-registered or graduated students, the Residence Program 20 Year Reunion and the Registration Fee Intern's evaluation of the program.

Photographs may not be published, posted on the internet, donated, sold, exhibited or otherwise distributed.
